Vanessa Chambers April 2019 Employee of the Month | SEA

04/01/2019

Vanessa Chambers, Staff Assistant in the Physics Department, was selected as the April 2019 Employee of the Month.

Vanessa is truly an example of going the extra mile in all she does, both literally and figuratively! She is the welcoming face of Physics, makes friends wherever she goes and takes on challenges with a “will-do attitude!”

Whether it’s learning how to update and maintain the department website, tackling a graduate degree in Technical Communication & Rhetoric, editing dissertations, mastering Qualtrics and the Adobe Suite, organizing the Conference for Undergraduate Women in Physics (CUWiP), working as a volunteer with the Society of Physics Students, or riding her bike, she is truly a role model not only for all women, but everyone!

In Karalee’s words, “she [shows] me and countless others... you can continue to learn, succeed and be that person that people look up to.”

Congratulations Vanessa on an honor well-deserved!
